

Appendix C-1: Additional Businesses Permitted to Operate (Updated May 18, 2020)

General Requirements

The “Additional Businesses” listed below may begin operating, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate industry-specific guidance by the Health Officer. These businesses were selected to implement an initial measured expansion of commercial activity based on health-related considerations including the risks of COVID-19 transmission associated with types and modes of business operations, the ability to substantially mitigate transmission risks associated with the operations, and related factors, such as the following:

- **Increase in mobility and volume of activity**—the overall impact the reopening will have on the number of people leaving their homes and traveling to work at or access the business;
- **Contact intensity**—the type (close or distant) and duration (brief or prolonged) of the contact involved in the business;
- **Number of contacts**—the approximate number of people that will be in the setting at the same time;
- **Modification potential**—the degree to which mitigation measures can decrease the risk of transmission.

To mitigate the risk of transmission to the greatest extent possible, before resuming operations, each Additional Business must:

- a. Prepare, post, implement, and distribute to their Personnel, as defined below, a Social Distancing Protocol as specified in Section 15.h. of the Order for each of its facilities in the County frequented by their Personnel or members of the public; and
- b. Prepare, post, implement, and distribute to its Personnel a written health and safety plan that addresses all applicable best practices set forth in relevant Health Officer directives.

As used in this Appendix C-1, “Personnel” means the following people who provide goods or services associated with the Additional Business in the County: Employees; contractors and sub-contractors (such as those who sell goods or perform services onsite or who deliver goods for the business); independent contractors (such as “gig workers” who perform work via the Additional Business’ app or other online interface); vendors who are permitted to sell goods onsite; volunteers; and other individuals who provide services onsite at the request of the Additional Business.

Also, each Additional Business must comply with Social Distancing Requirements, described in Section 15.k. of the Order, as well as all applicable industry-specific guidance issued by the State of California related to COVID-19, set forth at <https://covid19.ca.gov/industry-guidance/>.

List of Additional Businesses

For purposes of the Order, Additional Businesses include the following based on the summarized health risk related rationale:

(1) Retail Stores and Retail Supply Chain Businesses

Appendix C-1: Additional Businesses Permitted to Operate (Updated May 18, 2020)

- a. Basis for Addition. Curbside and other outdoor pickups of goods from retail stores have low contact intensity and a moderate number of contacts between Personnel (as defined above) and customers. Businesses that involve outdoor interactions carry a lower risk of transmission than most indoor businesses. Also, curbside and other outdoor pickups that take place outside these stores should result in only a relatively modest increase in the number of people re-entering the workforce and the overall volume of commercial activity and mitigation measures can meaningfully decrease the resulting public health risk.
- b. Description and Conditions to Operate. The following businesses are permitted to operate, beginning at 6 a.m. on May 19, 2020, subject to the stated limitations and conditions:
 - i. Retail stores may operate subject to all of the following limitations:
 1. The store may operate for curbside or other outdoor pickup only. The store may not display merchandise for sale on tables or otherwise outside the store. Customers may not enter the store or interior of any indoor shopping mall.
 2. The store must have access to an area or areas outside the store for customer pickups. Subject to local requirements, a pickup area may be curbside, on a sidewalk, in a parking lot, or in any other area that is suitable for customer pickups and not in an enclosed space, provided the area is located near the store.
 3. The store must employ reasonable measures to require customers to comply with Social Distancing Requirements at the pickup areas, including but not limited to marking locations at six-foot intervals for customers to stand while waiting in line.
 4. The store must limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.
 5. The store must employ reasonable measures to prevent pedestrian or vehicle congestion in the vicinity of the pickup area.
 - ii. Manufacturing businesses permitted to operate under the state Resilience Roadmap (<https://covid19.ca.gov/roadmap/>), as it is amended from time-to-time, may operate. Manufacturers must limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.
 - iii. Logistics and warehousing facilities permitted to operate under the state Resilience Roadmap (<https://covid19.ca.gov/roadmap/>), as it is amended from time-to-time, may operate. These businesses must limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.
